List of Covered Drugs or "Drug List"

with Select Generics

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER IN THIS PLAN. This formulary was updated on September 1, 2026.

For more recent information or other questions, please contact Pharmacy Member Services at **1-833-279-0467**, TTY users should call **711**, 24 hours a day, 7 days a week, or visit **www.anthem.com/ca**.

Note to existing members:
This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this Drug List (formulary) refers to "we," "us" or "our," it means Anthem Blue Cross. When it refers to "plan" or "your plan," it means your Senior Secure (HMO) with Senior Rx Plus plan.

This document includes a Drug List (formulary) for your plan which is current as of 1/1/2027. For an updated Drug List (formulary), please review the Drug List (formulary) online at **www.anthem.com/ca**, or call Pharmacy Member Services. Our contact information, along with the date we last updated the Drug List (formulary), appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2027, and from time to time during the year. You will receive notice when necessary.

What is the Senior Secure (HMO) with Senior Rx Plus Part D formulary?

In this document, we use the terms Drug List and formulary to mean the same thing. A formulary is a list of covered Part D drugs selected by us in consultation with a team of health care providers, which represents the prescription therapies believed to be necessary parts of a quality treatment program.

Your plan will generally cover the drugs listed in the formulary as long as you follow these basic rules:

- The drug is medically necessary.
- The prescription is filled at a network pharmacy, and other plan rules are followed.

Your plan provides coverage for many Medicare Part D eligible drugs. The drugs on this list are selected by the plan with the help of a team of doctors and pharmacists. Not all drugs are on your formulary.

Some drugs may be covered under the medical benefits of your plan rather than under the drug benefits of your plan. Some of the drugs that are covered under your medical benefits are marked with a B/D in this Drug List.

You may also have coverage for certain additional drugs not covered by Medicare Part D plans. These drugs are referred to as "Extra Covered Drugs" and are covered by your Senior Rx Plus supplemental benefits. You can find out which specific drugs are covered by checking your Extra Covered Drug List online at **www.anthem.com/ca**, or by calling the Pharmacy Member Services number listed on the front and back cover pages.

To find out if your plan includes coverage for additional drugs, please check the benefits chart located at the front of your Evidence of Coverage. For more information on how to fill your prescriptions, please review your Evidence of Coverage online at **www.anthem.com/ca**, or call the Pharmacy Member Services number listed on the front and back cover pages.

For a complete listing of all prescription drugs covered by Senior Secure (HMO) with Senior Rx Plus, please visit our website or call us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

Can the Part D Formulary change?

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the formulary during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow Medicare rules in making these changes. Updates to the formulary are posted monthly to our website here: **www.anthem.com/ca**

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

- **Immediate substitutions of certain new versions of brand name drugs and original biological products.** We may immediately remove a drug from our formulary if we are replacing it with a certain new version of that drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand name drug or original biological product on our formulary, but immediately move it to a different cost-sharing tier or add new restrictions.

  We can make these immediate changes only if we are adding a new generic version of a brand name drug, or adding certain new biosimilar versions of an original biological product, that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

If you are currently taking the brand name drug or original biological product, we may not tell you in advance before we make an immediate change, but we will later provide you with information about the specific change(s) we have made.

If we make such a change, you or your prescriber can ask us to make an exception and continue to cover for you the drug that is being changed. For more information, see the section below titled "How do I request an exception to the Senior Secure (HMO) with Senior Rx Plus Part D formulary?"

Some of these drug types may be new to you. For more information, see the section below titled "What are original biological products and how are they related to biosimilars?"

- **Drugs removed from the market**. If a drug is withdrawn from sale by the manufacturer or the Food and Drug Administration (FDA) determines to be withdrawn for safety or effectiveness reasons, we may immediately remove the drug from our formulary and later provide notice to members who take the drug.
- **Drugs that are no longer considered Part D eligible**. If CMS changes the Part D status of a drug, CMS will notify us that the drug is no longer deemed eligible for coverage under your Part D plan. If this happens, we will immediately remove the drug from the Part D Drug List.
- **Other changes**. We may make other changes that affect members currently taking a drug. For instance, we may remove a brand name drug from the formulary when adding a generic equivalent or remove an original biological product when adding a biosimilar. We may also apply new restrictions to the brand name drug or original biological product, or move it to a different cost-sharing tier, or both. We may make changes based on new clinical guidelines. If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug, or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective. Alternatively, when a member requests a refill of the drug, they may receive a one-month supply of the drug and notice of the change.

  If we make these other changes, you or your prescriber can ask us to make an exception for you and continue to cover the drug you have been taking. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled "How do I request an exception to the Senior Secure (HMO) with Senior Rx Plus Part D formulary?"

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2027 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2027 coverage year, except as described above. This means these drugs will remain available at the same cost sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the formulary for the new benefit year for any changes to drugs.

We evaluate new drugs as they come onto the market. Once we have completed a full evaluation based upon clinical effectiveness and cost relative to other drug therapies, the drug will be assigned to a drug plan tier or non-formulary designation. If a new Part D eligible drug is designated as non-formulary following our review, this drug will not be covered on your formulary. If your prescriber feels you should use the new drug, you or your prescriber may request a coverage exception.

The enclosed formulary is current as of 1/1/2027. To get updated information about the drugs covered by your plan, please call Pharmacy Member Services. Our contact information appears on the front and back cover pages.

How do I use the Part D formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 11. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "Cardiovascular, Hypertension, and Lipids." If you know what your drug is used for, look for the category name in the list that begins on page 11, then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 83. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Your plan covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs work just as well as and usually cost less than brand name drugs. There are generic drug substitutes available for many brand name drugs. Generic drugs usually can be substituted for the brand name drug at the pharmacy without needing a new prescription, depending on state laws.

What are original biological products and how are they related to biosimilars?

On the formulary, when we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have alternatives that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

For discussion of drug types, please see the Evidence of Coverage Chapter titled "Using the plan's coverage for Part D prescription drugs", Section 3.1, "The 'Drug List' tells which Part D drugs are covered."

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage.

These requirements and limits may include:

- **Prior authorization:** Your plan requires you or your prescriber to get prior authorization for certain drugs. This means that you will need to get approval from us based on specific criteria before you fill your prescriptions. If you don't get approval, your plan may not cover the drug.
- **Quantity limits:** For certain drugs, we limit the amount of the drug that we will cover. For example, we cover 90 tablets per 30 days of *metformin 850 mg tablets*. This may be in addition to a standard one-month or three-month supply.

- **Step therapy:** In some cases, we require you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 11. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask us to make an exception to these restrictions, or limits, or for a list of other similar drugs that may treat your health condition. See the section, "How do I request an exception to the Senior Secure (HMO) with Senior Rx Plus Part D formulary?" on page 6 for information about how to request an exception.

What if my drug is not on the Part D formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Pharmacy Member Services, and ask if your drug is covered.

If you learn that your plan does not cover your drug, you have two options:

- You can ask Pharmacy Member Services for a list of similar drugs that are covered by your plan. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by your plan.
- You can ask your plan to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Senior Secure (HMO) with Senior Rx Plus Part D formulary?

You can ask us to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a Part D eligible drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to waive a coverage restriction including prior authorization, step therapy, or a quantity limit on your drug. For example, for certain drugs, we limit the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.
- You can ask us to cover a formulary drug at a lower cost-sharing level unless the drug is on the specialty tier. If approved, this would lower the amount you must pay for your drug.

Generally, your plan will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug, or applying the restriction would not be as effective for you and/or would cause you to have adverse effects.

You or your prescriber should call Pharmacy Member Services to ask for a tiering or formulary exception. Our contact information appears on the front and back covers.

When you request an exception, your prescriber will need to explain the medical reasons why you need the exception. Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can ask for an expedited (fast) decision if you believe, and we agree, that your health could be seriously harmed by waiting up to 72 hours for a decision. If we agree, or if your prescriber asks for a fast decision, we must give you a decision no later than 24 hours after we get your prescriber's supporting statement.

What can I do if my drug is not on the formulary or has a restriction?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or you may be taking a drug that is on our formulary but has a coverage restriction, such as prior authorization. You should talk to your prescriber about requesting a coverage decision to show that you meet the criteria for approval, switching to an alternative drug that we cover, or requesting a formulary exception so that we will cover the drug you take. While you and your doctor determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or has a coverage restriction, we will cover a temporary one-month supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum of a one-month supply of medication. If coverage is not approved, after your first one-month supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in your plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

If you have questions about your plan, please call Pharmacy Member Services. Our contact information, along with the date we last updated this formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call **Medicare** at **1-800-MEDICARE (1-800-633-4227)**, 24 hours a day/7 days a week. TTY users should call **1-877-486-2048**. Or visit, **www.medicare.gov.**

Your plan's Part D formulary

The formulary that begins on page 11 provides coverage information about the drugs covered by your plan. If you have trouble finding your drug in the list, turn to the Index that begins on page 83.

The **first column** of the chart lists the drug name. Brand name drugs are capitalized (e.g., HUMALOG) and generic drugs are listed in lowercase italics (e.g., *enalapril*).

The **second column** of the chart identifies the tier placement of each medication covered in your formulary. Our drug plan groups drugs based upon cost with the lowest cost drugs in Tier 1. These are typically generic drugs. Some newer, more expensive generic drugs may be on a higher tier. To find out what your copayment or coinsurance is for each drug tier, please check the benefits chart located at the front of your Evidence of Coverage, which can be found online at **www.anthem.com/ca**, or call the Pharmacy Member Services number listed on the front and back cover pages. Your drug plan benefits chart uses the following tier labels:

Tier Number	Tier Label
1	Generics
2	Preferred Drugs
3	Non-Preferred Drugs, including Specialty Drugs

The **third column** tells you if your plan has any special requirements for coverage of your drug. The formulary chart legend, located on page 11, contains the list of special requirements which can be applied to drugs in your plan. The legend also gives you a description of the restriction and the code used in the drug chart to tell you that the restriction applies to a specific drug.

Select Generics for 2027

Select Generics are a specific list of drugs that have been on the market long enough to have a proven track record for effectiveness and value. These generic drugs treat conditions like diabetes, high blood pressure, high cholesterol and osteoporosis. The Select Generics benefit is designed to help you better manage your chronic conditions and reduce out-of-pocket costs on prescription medications.

You may fill up to a 100-day supply of Select Generics if prescribed. These drugs are covered under your Senior Secure (HMO) with Senior Rx Plus plan at a reduced cost (see the benefits chart in your Evidence of Coverage).

QL - Quantity Limits: Restricts the frequency, amount or dosage of medication for which you can obtain benefits each time you get a prescription filled. This is most often set on a monthly basis.

PA - Prior Authorization: The process of obtaining approval for certain prescriptions before benefits will be approved. You or your prescriber will need to request prior authorization before you fill the prescription.

ST - Step Therapy: The process of first trying a certain drug or drugs to determine if that drug or drugs will treat your medical condition before your plan will cover another drug for that condition.

B/D PA - Part B vs Part D: This drug may be covered under either your Part D prescription drug benefits or as a Part B drug under your medical benefits, as determined by Medicare.

MO - Mail Order: Prescription drugs available through mail order.

NEDS - Non-extended Day Supply: Drugs that will be limited to a 30-day supply per fill. This day supply is different from a Quantity Limit.

S - Specialty: Specialty drugs cost $1,080 or more for a 30-day supply. Most plans limit Specialty drug fills to a 30-day supply. You can find out if Specialty drug fills are limited to a 30-day supply by checking the benefits chart in the front of your Evidence of Coverage which can be found online at **www.anthem.com/ca**, or call the Pharmacy Member Services number listed on the front and back cover pages.
